13 March 1956

MEMORANDUM FOR THE RECORD

SUBJECT : Procurement of a Van Trailer to Augment Hycon Test Facilities at [redacted]

25X1

1. As a result of a meeting held on 1 March 1956 between the Project Director, the Deputy Project Director, [redacted] and [redacted] of Hycon, and [redacted], Project Contracting Officer, the Project Director authorized the procurement of a Fruehoff Van type trailer to augment Hycon test facilities at the [redacted]. It was considered that normal construction at the [redacted] could not be completed in sufficient time to satisfy the urgent need for these facilities to support test flights for training purposes on the A-1 and A-2 cameras and to support test flights to shake down the B camera. Accordingly, [redacted] were authorized to initiate procurement of a suitable trailer.

2. [redacted] called the undersigned on 6 March 1956 and presented the following estimated costs in connection with the trailer procurement:

25X1

Net Cost of Trailer	\$3600
8% tax (State and Federal)	288
Air Conditioning Unit	865
Basic Trailer Cost	\$4753

\$3600	3000.00	Delivered price
288	2000.00	Modifications
865	5000.00	Net price

for information for [redacted]
3000.00 Delivered price
2000.00 Modifications
5000.00 Net price

Such costs were discussed with the Deputy Project Director and Hycon authorized to proceed.

Shic 3/12

3. In addition to the above basic costs, these will be costs incurred in connection with insulating, installing air conditioning, lighting, equipping, etc. the trailer. Hycon will do this work in their shops - estimated cost about \$2500. It will also cost about \$200 to get the trailer hauled to Indian Springs.

4. [redacted] will reimburse the Hycon cut-out for purchase of the trailer and airconditioner, plus tax and hauling. A separate contractual agreement will be worked out with Hycon for reimbursement of modification of the trailer.
